

Junior Research Fellow for Microfluidic Based Biomolecule Separation

About This Position

The SPark Lab in the Chemical Engineering Department at IIT, Gandhinagar is currently seeking an individual to fill the position of junior research fellow. In this role, the candidate will be part of a multidisciplinary team focused on developing microfluidic devices to purify biomolecules.

Minimum Qualification

B.Tech/M.Tech/M.Sc Chemical Engineering, Biotechnology, Chemistry or Materials Engineering or other allied areas.

Candidates with a B.Tech or M.Sc. degree must possess a valid NET or GATE score.

Required Research Experience

Demonstrated experience with peptide synthesis, nanoparticle synthesis and molecular biology techniques

Duration: 1 Year

Remuneration: 37,000/month + HRA

Application Procedure

Candidates must fill out the <https://forms.gle/SsyJKca8ZqKxNVBv5> to be considered for this position.

Application Deadline

The deadline for submission is September 30th, 2025.
